MAYOR'S WORK MAKES TROUBLE

Assumes Power "Fix" Documents.

Ogden City Recorder Condemns Glasmann's Supreme Nerve.

Ordinances Subjected to Unauthorized "Amendments" Must Be Again Acted Upon to Be Legal.

Special to The Tribune. Special to The Tribuns.

OGDEN, June 15.—The practice of the Mayor of Ogden in appropriating public documents from the City Recorder's desk, making interlineations in them and substituting corrections and amendments to suit his own purposes and his self-interests, is going to cost the city administration trouble, and will undoubtedly necessitate the doing of the work over again in many instances, at the sole cost and expense of the city. Will Have to Be Done Over.

Will Have to Be Done Over.

Recorder William J. Critchlow today stated that in the performance of his duties he considered it necessary that the action on the ordinances considered and action taken upon last Monday evening would have to be done again. Several of these, particularly the compromise franchise from the Law committee for the Ogden Waterworks company, and which passed to its second reading, not only had pencil interlineations, but were subsequently carried out into the hall by the Mayor and other additional interlineations and amendments were inserted by him.

Ordinances Ave Illegal

Ordinances Are Illegal.

Ordinances Are Illegal.

Mr. Critchiow, as a public officer who has a full sense of his duties, asserts to-day that, after a conference with the Law committee, he has come to the conclusion that the action taken on Monday night on this and other ordinances which passed the second reading and which were amended and interlined by the Mayor subject to the authoritative action of the Council, are not legal in their present form. He urges that while the pencil changes made by the Mayor may not have been equivalent to amendments, which might possibly affect the whole intent of the proposed ordinance, the proceedings were irregular and could, in the hands of unscrupulous persons, be made to convey an entirely different meaning than the one that was intended to be granted by the members of the Council in fact they could be changed, if this privilege were allowed, to convey rights and privileges belonging to the citizens of the municipality that the Council never intended should be conveyed, and which it was probably intended to conserve.

"In line with my conclusions and the

meeting of the Council for original action. My position is that if these interlineations and corrections and amendments, as made by the Mayor, are to be a part of the ordinance the full body of the Council shall pass on them, and in that sense they will come up for consideration under the head of new business. My idea is that the Council should not pass an ordinance meaning one thing and then have it amended and changed to mean something entirely different, which may forfeit the rights of the citizene."

Interest of Mayor's Papers.

Interest of Mayor's Papers.

This from the City Recorder is commendable and refreshing. It is a plain exposition of the methods that have prevailed with the Mayor-editor of Ogden, who has assumed to himself the right to interline efficial documents of public import, and to remove the same, when the interests of his papers demanded it, from the proper custodian, in order that his printing establishment might have the advantage. Recorder Critchiow will have no more of that kind of work, and the Council will back him.
